

## COLONEL INVITED TO NOTIFICATION

Taft Also Expected to Sit on Same Platform in Carnegie Hall.

## LOVE FEAST ARRANGED

All the Delegates to the Progressive Convention Will Be Invited.

The notification to Charles E. Hughes of his nomination, definitely set yesterday for Monday evening, July 31, at Carnegie Hall, will be the occasion of a great gathering of Republican and Progressive leaders to shake hands and pledge cooperation for November 7.

It is not improbable that it will be the occasion of the appearance on the same platform of Col. Theodore Roosevelt, William H. Taft and Mr. Hughes, and the final burial of the Roosevelt-Taft hatchet. Invitations will be sent both to Col. Roosevelt and Mr. Taft, and though nobody will say whether both will accept, Senator Harding of Ohio made it as safe to say that Col. Roosevelt will be invited," he said, "and that he will be a most welcome guest if he should come. All the Republican leaders will be invited, and the Progressive leaders will be invited."

That statement is literally true. Practically every Republican or Progressive leader will be invited to go to Carnegie Hall, and to the convention afterward at the Hotel Astor. To get actively into the Hughes campaign. At least ten thousand invitations will be sent out. Among the first on the list are all the delegates to the Progressive convention in Chicago, all the Progressive National Committee members and every other Progressive leader.

## Governors and Congressmen Too.

The invitations will go also to all the delegates to the Republican convention that nominated Mr. Hughes, all the Republican National Committee, all the Republican Governors, Senators and Representatives, Republican State leaders and other prominent Republicans. This is expected to be the largest gathering of the kind since the election of 1904.

Provision will be made also in arranging the invitations for the Hughes Women's Alliance and for other women's organizations that are supporting the Republican candidate. Despite the number of invitations it is thought there will be seats left for a good many of the general public, and everybody will be welcome at the notification and at the reception afterward.

## Predicts Victory in Maine.

Chairman Willcox made his first political prediction yesterday in discussing the situation in Maine. "We shall win in Maine beyond a doubt," he said. "Mr. Hughes will go there early in September, and Col. Roosevelt will make one of his speeches there. The Colonel sent to Mr. Hughes yesterday a letter in which he said that he was a Republican and a Democrat, and that he was a Republican and a Democrat."

There were a good many callers yesterday at the Hughes headquarters. Among them were Senator Harding and Mr. Murray Crane came from Livingston, New York. Governor of Rhode Island, and Mr. and Mrs. E. C. Smith, who are in the city on a visit. Mr. Hughes to make Salt Lake City a stop on his August Western trip, was announced yesterday. Mr. E. C. Smith, chairman of the Maryland State Committee, Francis Shunk Brown, Attorney-General of Pennsylvania, and Representative William E. Dwyer, of Pennsylvania, after talking to all of them, Mr. Hughes went back to Bridgehampton at 4 o'clock yesterday afternoon.

## NEW ENGLAND SECURE.

Boston Fish Bureau Says Sharks Won't Go North of Sound.

BOSTON, July 13.—Fishermen on the Atlantic beaches in New England need not fear of sharks, according to the report of the Boston Fish Bureau. The bureau has no records or knowledge of any man eating sharks having been taken in Massachusetts Bay, and the directors said that they believed the fish never came north of Long Island.

## PORTER IDENTIFIES BENSON.

Saw Him Loitering in Ferry House on Night of Mail Robbery.

Frank Lewis, a porter employed by the Central Railroad of New Jersey, in the United States District Court yesterday identified Thomas Benson, who is accused of robbing the mails of \$500,000 of securities, as the man he had seen loitering in the Communipaw ferry house on the night of the robbery.

## RESERVE TO LOSE \$40,000,000.

Withdrawn by Treasury Department Owing to Heavy Collections.

WASHINGTON, July 13.—Withdrawal of \$40,000,000 of the Treasury's deposits in the Federal reserve banks was ordered today by Secretary McAdoo. Treasury officials said the action was in the usual course of business, the enormous total of the withdrawal being due to the fact that heavy deposits made by internal revenue collectors in the closing days of the fiscal year had brought the Treasury's balance in the banks to well above \$100,000,000.

## CASTORIA For Infants and Children.

The Kind You Have Always Bought

Dynamite blast set off in Matawan Creek in effort to kill the shark which cost the lives of two bathers and maimed a third.

## NEW WILSON LEAGUE ELECTS WM. KENT

Independents Organizing in 32 States—Campaign Committee Not Named.

The Woodrow Wilson Independent League held its first meeting to elect officers and plan for the campaign yesterday at its headquarters, 240 Madison avenue. The league is represented in thirty-two States, with a membership of 50,000 in California alone. The members are Progressives, Republicans and Independents.

Congressman William Kent of California was elected chairman. He is an independent, but supported Col. Roosevelt when he was President. Norman Hapgood was elected vice-chairman, and Joseph M. Frier, a local fusionist, chairman of the executive committee. Henry Bruere, former City Chamberlain, was elected treasurer and Guy Mason secretary. The following were elected to the executive committee: Fire Commissioner Adamson, Henry Bruere, Bernard M. Baker of Baltimore, Charles R. Crane, Norman Hapgood, Corporation Counsel Hardy and Governor Healy.

The league was formed to work in harmony with other organizations, such as the Woodrow Wilson Progressive League, in all the States. In States not extensively organized it will perfect its own machine. In others it will simply cooperate.

## Predicts Victory in Maine.

Chairman Willcox made his first political prediction yesterday in discussing the situation in Maine. "We shall win in Maine beyond a doubt," he said. "Mr. Hughes will go there early in September, and Col. Roosevelt will make one of his speeches there. The Colonel sent to Mr. Hughes yesterday a letter in which he said that he was a Republican and a Democrat, and that he was a Republican and a Democrat."

## COSTIGAN PICKED TO LEAD GRAFT HUNT

Arrests of Policemen Not Expected Before Monday—Four Witnesses Held.

Leon G. Godley, acting Police Commissioner, called at the office of District Attorney Swann yesterday, and offered the exclusive services of Police Lieut. Dan Costigan, "Honest Dan," in the District Attorney's investigation into police graft conditions. Lieut. Costigan was relieved of all duties at Police Headquarters and immediately reported at District Attorney Swann's office to give all his time to the investigation of the grafting being done by the city officials.

## MOOSE FACTIONS ARE BUSY.

Seek Control of State Committee Meeting on July 22.

Both factions of the New York Progressives yesterday took action looking toward the control of the Progressive State committee, which is to meet at Syracuse Saturday, July 22. John J. O'Connell, chairman, called a meeting last night of New York county committeemen at the headquarters, on Forty-second street, to send out letters to Progressive State committeemen asking for proxies to be voted at the Syracuse meeting.

## Rate Increases Deferred.

WASHINGTON, July 13.—Proposed increases of from 10 to 20 per cent. in rates on clay, gypsum, paint and plaster boards from Minnesota, were suspended by the Interstate Commerce Commission till November 12.

## Three Men Crushed to Death.

St. JOHN, N. B., July 13.—Three longshoremen were crushed to death when several hundred bags of sugar were at work in the hold of the British steamer Caracquet late last night.

## Two Danish Schooners Ashore.

St. PIERRE, July 13.—The Danish schooners Danmark and Haghlid, laden with lumber, were driven ashore by a heavy swell and are ashore on the western coast of Little Miquelon peninsula.

## MANY BATHERS TELL OF SHARKS; ONE MAN BITTEN

President Discusses Problem of Americanizing Foreign Born Citizens.

## WILSON INSISTS ON LOYALTY FROM ALL

President Discusses Problem of Americanizing Foreign Born Citizens.

WASHINGTON, July 13.—President Wilson today said that the American Government must insist that foreigners becoming citizens remain loyal, even if they are not pleased with the way affairs are conducted. Loyalty means nothing, he said, unless it is coupled with self-sacrifice. He added that Americans cannot teach loyalty unless they practice it. The President said in part:

"We ought to be careful to maintain a government at which the immigrant can look with the closest scrutiny and to which he should be at liberty to address this question: 'You declare this to be a land of liberty and of equality of rights. Have you made it so by your law?' We ought to be able in every other method of instructing these people to show them that that has been our endeavor."

"We cannot conceal from them long the fact that we are just as human as any other nation, that we are just as selfish, that there are just as many mean people among us as anywhere else, that there are just as many people here who want to take advantage of other people as you can find in other countries, just as many cruel people, just as many people heartless when it comes to maintaining and promoting their own interests, but that our object is to get these people in harness and see to it that they do not do any damage and are not allowed to indulge the passions which would bring injustice and calamity at last upon a nation whose object is spiritual and not material."

## HOUSE MEMBERS TO STUMP.

Winding Up Business—Plan Three Day Adjournments.

WASHINGTON, July 13.—Almost through with its share of the session's legislative program, the House next week will adjourn for three days to permit members to go home for campaign work while the Senate is wrestling with the problem of a special adjournment until about September 1.

## HOME WATER SHARKS.

Dr. Townsend Says "Manfishers" Are Indispensable to N. Y. Bay.

Dr. Charles Haskins Townsend, director of the Aquarium, has made a special study of deep sea creatures and is particularly keen on sharks. He has had many of them captured in the nets of fishermen in nearby waters under his observation and feels pretty sure that the fellows that have killed bathers for the first time in a generation or more, are of a variety that has been swimming in the coast waters and inlets practically every summer. The only wonder is that swimmers have not been killed before, he says. Dr. Townsend does not take any stock in the theory of Hermann Oelrichs that sharks are man killers only south of Hatteras.

## STEEL WAGES ADVANCED MOST.

Clear Manufacturing Shows No Increase in Pay.

WASHINGTON, July 13.—Many of the country's leading industries have made substantial increases in their wage scales within the last year. An inquiry completed today by the Department of Labor statistics have shown the biggest advances in the steel industry. Total advances amounted to from 5 to 30 per cent.

## MEATS HIGHEST IN AUSTRIA.

500 Per Cent. Advance There Since the War Started.

WASHINGTON, July 13.—Food prices in Europe as shown today by the bureau of labor statistics have had the biggest advances in Austria, where meats are more than 500 per cent. higher than before the outbreak of hostilities. Meat prices in Berlin show increases ranging from 45 to 160 per cent.

## Bill to Admit Coastwise Ships.

WASHINGTON, July 13.—Democrats of the Senate Commerce Committee today agreed to incorporate in the Government shipping bill a provision permitting ships acquired under the proposed measure to enter the American coastwise trade. This question was left to the committee by the Democratic caucus Saturday. The bill will be reported to the Senate next week.

(Substitutes Unnecessary)

## \$315,836,843 NAVY BILL UP IN SENATE

Swanson, Democrat, Declares America Must Be Second on the Sea.

WASHINGTON, July 13.—The Senate began discussion today of the \$315,836,843 naval bill, the largest naval appropriation measure by many millions in the nation's history. Senate leaders emphasized their intention of expediting its consideration and little opposition arose to the committee amendments presented.

An indication that the Senate is in sympathy with the liberal increases written into the bill by the Senate Naval Committee was seen in the approval without opposition of a section increasing the enlisted strength of the navy from the present 54,000 to 68,700 men and 6,000 apprentice seamen. The House bill provided for an increase to only 61,000 men.

When the personnel section was reached, Senator Norris asked for an explanation of its purpose. Senator Swanson, in charge of the measure, replied that the section drafted followed the recommendations of the navy general board and would give only a sufficient personnel to man the best battleships and cruisers now in commission and a 50 per cent. complement for vessels in reserve. Senator Lodge, ranking Republican member of the naval committee, also declared the increase imperative.

That there would be no partisan opposition to the bill was apparent from the beginning of the debate, and leaders regarded the progress made on the first day a consideration as highly encouraging. The building programme probably will be reached within a few days, and while it will develop the only serious opposition that the measure is expected to meet, champions of the bill believe the authorization for 1917, including four dreadnoughts and four battle cruisers, together with the three year construction policy will be approved. A long fight is expected in conference, the House bill having provided for only five capital ships.

The only committee recommendation which met determined opposition today was one providing for a commission to report on the advisability of establishing at least one more naval academy. After a long debate, in which Senator Weeks led the opposition to the proposal and Senator Phelan and others defended it, the Senate sustained the committee 32 to 27.

The three year programme calls for an expenditure of \$25,100,000, of which \$15,836,843 is appropriated for 1917. New construction in 1917 would cost \$10,726,000. The House bill called for a total expenditure of \$29,500,000 in 1917.

## HOUSE MEMBERS TO STUMP.

Winding Up Business—Plan Three Day Adjournments.

WASHINGTON, July 13.—Almost through with its share of the session's legislative program, the House next week will adjourn for three days to permit members to go home for campaign work while the Senate is wrestling with the problem of a special adjournment until about September 1.

All of the annual appropriation bills except the general deficiency measure, which will come during the closing days, have passed the House. Tomorrow the leaders plan to pass the Rucker corrupt practices act, the pay of the messengers, and the day after tomorrow the House will take up the bill to amend the act to provide for the payment of the messengers. That virtually will clear the House stage of important business to be put through before the session ends.

## STEEL WAGES ADVANCED MOST.

Clear Manufacturing Shows No Increase in Pay.

WASHINGTON, July 13.—Many of the country's leading industries have made substantial increases in their wage scales within the last year. An inquiry completed today by the Department of Labor statistics have shown the biggest advances in the steel industry. Total advances amounted to from 5 to 30 per cent.

## MEATS HIGHEST IN AUSTRIA.

500 Per Cent. Advance There Since the War Started.

## Bill to Admit Coastwise Ships.

WASHINGTON, July 13.—Democrats of the Senate Commerce Committee today agreed to incorporate in the Government shipping bill a provision permitting ships acquired under the proposed measure to enter the American coastwise trade. This question was left to the committee by the Democratic caucus Saturday. The bill will be reported to the Senate next week.

## DEATH AND HAVOC AS STORM HITS N. Y.

Temperature Drops From 88 to 71 After Heat Kills and Prostrates Many.

## GALE 60 MILES AN HOUR

Caddy Slain by Bolt as He Holds Flagstick in Hole for Mrs. Oscar Lewisohn.

An unheralded electrical bombardment, as savage as any that ever came from western sky rainfalls in the memory of the town, assailed the five boroughs and the outlying districts yesterday afternoon, driving down an ambitious temperature that threatened to smash the summer record and killing several persons.

The batteries aloft opened fire here about at 2:25 and kept it up intermittently with giant mortars and 25's until sundown. Long before the sun set unseen behind the storm clouds, twilight dimness came prematurely and the windows of the office buildings of the five boroughs glowed as at nightfall with electric blossoms.

Before the electrical relief came there were several deaths due to the heat and excessive humidity in all the metropolitan district and many prostrations. Divisions of all trolley lines and railroads delayed the rush of the day for a time by the rivalry of Jove's empyrean plant, which was on the job of thunderbolting more than three hours. When the storm broke, it was a relief to the highest temperature of 88 had dropped to 71 and folks enervated by the stored up heat of two consecutive days had the thoughts of real summer on heatless pillows.

## JAPAN BOOSTS NAVY.

Three Superdreadnoughts and Two Battle Cruisers in Plan.

Tokyo, July 13.—Despatches sent to America stating that Japan has authorized the construction of four superdreadnoughts are not well founded. The Navy Department has submitted to the Diet a bill involving the expenditure of about 250,000,000 yen in seven years.

This programme calls for the construction of three superdreadnoughts, two battle cruisers and many light cruisers, destroyers and submarines. The superdreadnoughts completed or building are the Fuso, Yamashiro, Ise, Hiyuga and Nagato.

The reported programme would fulfil the naval ambition by the creation of a new line of eight superdreadnoughts, complete of the Navy Department, which declined today to discuss the programme, saying the Japanese press accounts of it are surmises.

## FOUR DEAD, 28 HURT IN DU PONT BLASTS

Debris Scattered for Almost Half a Mile in All Directions at Haskell, N. J.

HASKELL, N. J., July 13.—A double explosion of nitroglycerine today wrecked a part of the du Pont powder plant here. Four experts were killed, one man is missing and about twenty-eight workmen were injured. The first explosion occurred in one of the mixing houses and the other in a nearby structure. Only about 500 feet away eight tons of nitroglycerine were stored, but it did not go off.

Immediately after the explosions, which broke every window in Haskell and scattered debris for almost half a mile, the du Pont company rushed in a rush of women, the wives of men employed in the mills. They were temporarily stayed at the gates, but their numbers soon swelled the thirty guests who had come there and they rushed in screaming and demanding to see the dead and injured.

The dead are John Thomson, Haskell, Harry Friedman, Canada, John Rountree, Mifflin, and Stanley Bragdon, Haskell. They were nitro mixing experts and two were in each building. The men who were injured were struck by flying debris. The cause of the accident is unknown.

The explosion today was the seventh in the du Pont mills since the beginning of the European war. In all seventeen have been killed and fifty-six injured since August, 1914.

## Anti-Trust Act Delay Asked.

WASHINGTON, July 13.—Representatives of several railroad groups appeared before the Senate Judiciary Committee today in support of a proposal to postpone until 1918 the effective date of the section of the Clayton anti-trust act prohibiting common carriers from inducing or supplying with any corporation in one year where the two organizations have interlocking directorates in whole or in part. It was argued that the two years given to reorganize was too short.

## THE GENUINE EDISON Dictating Machine

Before the coolness of the storm came there were fifteen prostrations and two deaths attributed to the heat and humidity.

## REAPPORTIONMENT ORDERED.

Court Rules in Case of Fourth and Fifth Senatorial Districts.

Supreme Court Justice Croyce of Brooklyn held yesterday that the reapportionment of the Fourth and Fifth Senatorial districts by a Democratic Board of Aldermen to suit Democratic purposes was unconstitutional, and ordered the Aldermen to rearrange boundaries so the Senatorial districts mentioned would be equal in population. Included in them will be more compact and nearer equal in population.

The action to compel the Aldermen to reconsider the reapportionment of lines not so adverse to the Republicans was brought by Jacob A. Livingston, a leader in the Fifth Senatorial district, and Jesse D. Smith, another Republican, who is prominent in the Fourth. They alleged that the redistricting had been done with a gerrymander and that the irregularity of the lines was calculated to inconvenience and confuse electors.

## Gale Adds to Havoc.

A gale that occasionally attained a force of more than 50 miles an hour, signs and otherwise added to the havoc created by the lightning. The first victim of the bolts in Manhattan was Henry Himmelman, a moulder of cast iron, who was killed while fixing a pigeon coop on the roof of 329 East Fourteenth street.

The tall flag pole on top of the new Police Headquarters building was shattered, showering into Centre Market place and stirring the neighborhood. A bolt struck the roof of the frame dwelling at 852 East 23rd street, The Bronx, and firemen put out the blaze after it had done only trifling damage.

Out on Long Island the storm was unusually violent. Mrs. Oscar Lewisohn, who was Edna May, and a group of soirees, including Mrs. William Hodge and Mrs. Charles H. Goddard, were on the grounds of the Great Neck Golf and Country Club engaged in a complimentary tournament when the smash from the clouds struck the caddy, who was 21 and had been caddy for Jerome Travers when the latter was champion. The tournament was postponed a week.

## Empire Track Suffers.

Westchester county was slashed by lightning, lengthwise and crosswise. A lance hit the top of the Empire City race track at Yonkers, and a lot of wires to Buffalo had been put out of commission. Wires to the south and west were not affected.

A tree in front of 343 East Forty-ninth street, hit by lightning and uprooted, fell on the hood of an automobile owned by Charles Vogenberger, damaging hood and windshield.

## Thousands of straws at reduced prices.

Youths' mixture suits; blue and black serges and chevots.

Substantial savings.
